Investment Approach	There will be no particular bias towards any market cap size or any sector. The universe of stocks is carefully selected to include companies having a robust business model and enjoying sustainable competitive advantages as compared to their competitors. The Investment strategy may also invest a certain portion of its corpus in debt and money market securities. Investment in debt securities will be guided by credit quality, liquidity, interest rates and their outlook. A portion of Investment Strategy may also be invested in IPOs and other primary market offerings that meet the Investment Strategy's investment criteria. The Investment Strategy will have an actively managed investment strategy. The portfolio will be built utilising a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective amongst other variables considered for the same. For more details, please read Investment Strategy Information Document.
Risk Profile of the Investment Strategy	SIF Units involve investment risks including the possible loss of principal. Please read the ISID carefully for details on risk factors before investment. Investment Strategy specific Risk Factors are summarized below: Risks associated with investing in Equities and Equity related Securities Investments in equity and equity related securities involve a degree of risk and investment strategies should not invest in equity schemes unless they afford to take the risk of losing their investment. Equity instruments by nature are volatile and prone to price fluctuations on a daily basis due to both micro and macro factors. Volatility in the capital markets, changes in policies of the Government, taxation laws or any other political and economic development may negatively affect the prices of the securities invested in by the Investment Strategy. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of some of the investments. The Investment Strategy may inter-alia also may be exposed to the risk arising from over exposure to few securities/issuers/sectors. Risks associated with investing in debt and / or Money Market Securities/ Units of Liquid / Money Market /Debt Mutual Fund Schemes: The NAV of the Investment strategies, to the extent invested in Debt and Money Market securities, will be affected by changes in the interest rates due to various factors such as government borrowing, inflation, economic performance etc. The NAV of the Investment strategies is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. Investments in Fixed Income securities may inter-alia carry Re-investment Risk, Spread Risk, Credit/Default Risk, Liquidity Risk, Prepayment Risk, etc. Risks associated with investments in Derivatives Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Risks associated with investing in repo transactions in corporate bonds: The market for the aforesaid product is illiquid. Hence, repo obligations cannot be easily sold to other parties. If a counterparty fails, the Investment Strategy would have to take recourse to the collateral provided. If a counterparty fails to repay and the value of the collateral falls beyond the haircut, then the Investment Strategy would be exposed to a loss of interest or principal. Further, if the Investment Strategy needs to take recourse to the debt securities provided as collateral, and the issuer of the debt securities makes a default, the investment strategy may lose the whole, or substantial portion of the amount. This risk is somewhat mitigated by the fact that only bonds which have credit rating of AA and above can be accepted as collateral

	for repo transactions. Risks associated with investing in Securities Segment and Tri-party Repo trade settlement The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time i.e. in the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the Investment Strategy may lose an amount equivalent to its contribution to the default fund. Risk factors associated with investments in REITs and InvITs; Investment in REITs and InvITs carry Liquidity Risk, Re-investment Risk, Price Risk, Interest Rate Risk, Credit Risk, Regulatory/Legal Risk etc. Risks associated with transaction in Units through stock exchange(s): In respect of transaction in Units of the Investment Strategy through BSE and / or NSE (applicable to the facility to transact in the Units of the Investment strategy through the Stock Exchange mechanism provided by the AMC), allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by BSE and / or NSE and their respective clearing corporations on which the Fund has no control. Risks associated with Restrictions on Redemption: The Trustee and the AMC may impose restrictions on redemptions when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets. Accordingly, such restriction may affect the liquidity of the Investment strategy and there may be a delay in investment strategies receiving part of their redemption proceeds. Risks associated with investing in foreign securities/ overseas investments/ offshore securities: Subject to necessary approvals, if any and within the investment objectives of the Investment Strategy, the Investment Strategy may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances. Since the Investment Strategy would invest only partially in foreign securities, there may not be readily available and widely accepted benchmarks to measure performance of such Investment Strategy. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management and hedging and portfolio rebalancing and in accordance with conditions as may be stipulated under the Regulations and by RBI from time to time. Investment in Foreign Securities involves a currency risk. To the extent that the assets of the Investment Strategy will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment. Risks associated with Segregated portfolio: The AMC / Trustee shall decide on creation of segregated portfolio of the Investment Strategy in case of a credit event at issuer level i.e. downgrade in credit rating by a Credit Rating Agencies (CRA) or actual default (in case of unrated debt or money market instruments). Accordingly, Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer. The Security comprises of segregated portfolio may not realise any value. Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV. For details on risk factors and risk mitigation measures, please refer ISID.
Plans/Options	The Investment Strategy will have two Plans i.e. Direct Plan and Regular Plan with a common portfolio and separate NAVs. Direct Plan is only for investors who purchase /subscribe Units in the Investment Strategy directly with the Fund and is not available for investors who route their investments through a

Distributor.

Both Direct and Regular Plan(s) offers two Options, viz., (i) Growth Option; and (ii) IDCW Option (with Payout of Income Distribution cum capital withdrawal option and Reinvestment of Income Distribution cum capital withdrawal option)

If the investor does not clearly specify at the time of investing, the choice of option under IDCW, it will be treated as a Reinvestment of Income Distribution cum capital withdrawal option.

In case, the IDCW amount is less than Rs. 1000/-, then it will be compulsorily reinvested in the existing plan of the Investment Strategy, invested by the investor.

The Trustee may decide to distribute by way of IDCW, the surplus by way of realised profit, IDCWs and interest, net of losses, expenses and taxes, if any, to Unit-holders in the IDCW option of the Investment Strategy if such surplus is available and adequate for distribution in the opinion of the Trustee. The Trustee's decision with regard to availability and adequacy, rate, timing and frequency of distribution shall be final. The IDCW will be due to only those Unit-holders whose names appear in the register of Unit Holders in the IDCW option of the Investment Strategy on the record date.

NAV Illustration on NAV computation:

Assumptions - on the day of calculation of NAV:

Particulars	Amount (In Rs.)
Market or Fair Value of the Investment Strategy's Investments	1000
Add: Current Assets	1000
Less: Current Liabilities and Provisions	300
Net Assets	1700

No of units outstanding in the plan = 100

The NAV per unit will be computed as follows: $1700/100 = \text{Rs. } 17$ per unit.

The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be prescribed by SEBI from time to time.

Methodology for computation of sale and re-purchase price of the units of SIF Investment Strategy:

Let's assume that an investor has invested Rs. 100,000 in a Mutual Fund Scheme on April 01, 2025, at a NAV of Rs. 10/- per unit and the exit load structure of the Investment Strategy is:

For exit on or before 12 months from the date of allotment – 1.00%

For exit after 12 months from the date of allotment – Nil

Purchase of Mutual Fund units:

Number of units allotted At the time of purchase of units	Amount invested
	NAV of Investment Strategy as on date of investment
	100000
	10
	= 10,000 units

As per existing SEBI (MF) Regulations, no entry load is charged with respect to applications for purchase / additional purchase of mutual funds units.

Redemption/Re-purchase of mutual fund units:

In case of redemption, the amount payable to the investor shall be calculated as follows:

(Current value of the holding) – (Exit Load applicable)

where, Current value of the holding = No. of units as on the date * NAV as on the date

Exit Load applicable = Current value of the holding * Exit Load %

	Scenario 1: Redemption is done during applicability of exit load Assume that the investor has requested for redemption of all the units (i.e. 10,000 units), on or before 12 months from the date of allotment i.e. on or before March 31, 2026, the redemption amount payable to investor shall be calculated as follows: Say in this example the redemption request is done on December 1, 2025; when the NAV of the Investment Strategy was Rs. 12/- and the exit load applicable is 1%, so the Redemption amount payable to investor shall be calculated as follows: Current value shall be = 10,000 units*Rs. 12/- = Rs. 1,20,000 Exit load applicable = Rs. 120,000*1% = Rs. 1200/- Redemption amount payable to investor = Current value of the holding – Exit Load applicable = Rs. 1,20,000 - Rs. 1200 = Rs. 118,800/- Scenario 2: Redemption is done if the exit load is NIL Assume that the investor has requested for redemption of all the units (i.e. 10,000 units), after 12 months from the date of allotment i.e. after March 31, 2026, the redemption amount payable to investor shall be calculated as follows: Say in this example the redemption request is done on April 1, 2026; when the NAV of the Investment Strategy was Rs. 12 and the exit load applicable is NIL, so the Redemption amount payable to investor shall be calculated as follows: Current value shall be = 10,000 units*Rs. 12/- = Rs. 120,000/- Exit load applicable = NIL Redemption amount payable to investor = Current value of the holding – Exit Load applicable = Rs. 1,20,000 – NIL = Rs. 1,20,000/- The aforesaid example does not take into consideration any applicable statutory levies or taxes. Accordingly, the redemption amount payable to investor shall further reduce to the extent of applicable statutory levies or taxes.

XI. Prevention of Money Laundering and Know Your Customer (KYC)

According to SEBI Guidelines under 'The Prevention of Money Laundering Act, 2002', SIFs are required to follow enhanced know your customer (KYC) norms. Further, SEBI has also notified SEBI (KYC Registration Agency) Regulations, 2011 on December 23, 2011 with a view to bring uniformity in KYC requirements for the securities market and to develop a mechanism for centralization of the KYC records.

Accordingly the following procedures shall apply:

- SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries viz. SIFs, Portfolio Managers, Depository Participants, Stock Brokers, Venture Capital Funds, Collective Investment investment strategies, etc. New Investors are therefore requested to use the common KYC Application Form and carry out the KYC process including IPV with any SEBI registered intermediaries including SIFs. The KYC Application Forms are also available on our website <https://sif.itiamc.com>.
- The Fund shall perform the initial KYC of its new investors and may undertake enhanced KYC measures commensurate with the risk profile of its investors in line with the aforementioned circulars/circulars issued by SEBI in this regard from time to time. The Fund shall upload the details of the investors on the system of the KYC Registration Agency ("KRA"). The Registrar & Transfer Agent of the Fund viz. Karvy Computershare Private Limited ("Karvy") may also undertake the KYC of the investors on behalf of the Fund. On receipt of the KYC documents from the Fund, the KRA shall send a letter to the investor within SEBI stipulated timelines, confirming the details thereof.
- Once the investor has done KYC with a SEBI registered intermediary, the investor need not undergo the same process again with another intermediary but can submit the letter/acknowledgment issued by the KRA.
- It is mandatory for intermediaries including SIFs to carry out IPV of its new investors. The IPV carried out by any SEBI registered intermediary can be relied upon by the Fund. ITI Asset Management Limited and NISM/AMFI certified distributors who are Know Your Distributor (KYD) compliant are authorized to undertake the IPV for SIF investors. Further, in case of any applications received directly (i.e. without being routed through the distributors) from the investors, the Fund may rely upon the IPV (on the KYC Application Form) performed by the scheduled commercial banks.
- Existing KYC compliant investors of the Fund can continue to invest as per the current practice. However, existing investors are also urged to comply with the new KYC requirements including IPV as mandated by SEBI.
- Application Form not accompanied by KYC Application Form or letter/acknowledgment issued by KRA may be rejected by the Fund. The KYC compliance status will be validated with the records of the KRA. AMC reserves the right to call for any additional information from the investors/applicant/reject applications/subsequent application in order to fulfil the requirements of PMLA norms prescribed by SEBI/PMLA Regulation from time to time.
